

## BR-320-PL

Balacchi cutting machines are characterised by particular cutting technology that allows easy handling of different kind of material. The various widths, lengths and shapes are readily available on the widest range of materials including fabrics, leather, carbon- and grassfires, foams, acrylic, cardboard, ect.

<b>Power supply</b>	Three-phase 400 V / 50 Hz
<b>Power input</b>	15 kW
<b>Dimensions</b>	L 3800 mm x L 4500 mm x H (working table) 920 mm
<b>Weight</b>	1500 kg
<b>Maximum load</b>	100 kg
<b>Useful cutting width</b>	3200 mm
<b>Carpet length</b>	3400 mm
<b>Useful cutting length</b>	Unlimited with conveyor
<b>Maximum cutting speed</b>	1500 mm/s
<b>Aspiration turbine power</b>	12.5 kW
<b>Security system</b>	Photocell sensor + 5 emergency buttons to stop the processing instantaneously
<b>Standard accessories</b>	Oscillating knife Marking pen
<b>Optional accessories</b>	Rotary knife Pneumatic knife Milling head Punching tool V cutter Creasing tool Inkjet tool Video camera Over camera
<b>PC</b>	Included with the machine, Windows 10 Pro and possibility to upload additional softwares
<b>Software</b>	BalacchiCutCad (preinstalled), compatible with the principal CAD softwares, allows the continuous monitoring through intuitive graphic interface
<b>Remote control</b>	Yes
<b>Possibility to connect other PCs</b>	Yes
